

CURRICULUM VITAE: Hélène ÉTIENNE**NATIONALITY:** French**YEAR OF BIRTH:** 1976**CURRENT POSITION**

CLS (Collecte Localisation Satellites): Scientist Executive in the "In situ & Composites" Department of the Environmental Business Unit, CLS.

EDUCATION

- 2003: PhD Thesis in Physical Oceanography, Toulouse University, France: Forecast error in ocean data assimilation. Ensemble method estimation in the North Atlantic
- 1999: M.Sc. in Oceanography, Toulouse University, France.
- 1998: B.S. in Physics, Toulouse University, France.

WORK EXPERIENCE

- Since 2014: Scientist Executive in the "In situ & Composites" Department of the Environmental Business Unit, CLS.
Development of a near real-time and hindcast analysis system of observed ocean currents (altimetry and in-situ) and operational maintenance for the CMEMS project (Multi Observation Thematic Assembly Center.)
R&D on wind slippage correction of the drifting buoys current database for the CMEMS In Situ Thematic Assembly.
- 2003-2014: Research Engineer in the Operational Oceanography Department - Space Oceanography Division (DOS), CLS.
Data assimilation expert: optimisation of the successive assimilation schemes of Mercator Ocean systems. Development of the validation procedures.
Contribution to the validation tools for the Mercator Ocean operational systems.
High resolution 2D ocean current operational system, including genetic algorithm optimisation, ensemble methods, data fitting: Oil & Gaz activities, pollution monitoring, marine security.
Regional ocean modelling configuration setup, based on NEMO, ROMS, HYCOM (initialization and open boundary conditions.)
- 1999 - 2003: Research Student in the Operational Oceanography Department - Space Oceanography Division (DOS). Study of model error in a quasi-geostrophic ocean model to improve the assimilation scheme.
