## PERSONAL STATEMENT

Graduated as a programmer accountant in 1994. He opens up his own business in the field of IT, managing internal workflows for companies and their management, as well as hardware and network maintenance. Since 2008 he is a collaborator at the OGS in the Remote Systems group and since 2011, a full-time technician at the same institution. In OGS, it deals with the creation of automation for data reception and conversion, decoding and editing of instrument data such as drifter, float, glider. He is also responsible for creating and maintaining the DBMS for web pages of the group's activity.
